750 HONDA SAVIOR

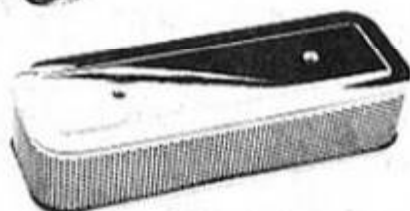

(See Photo)

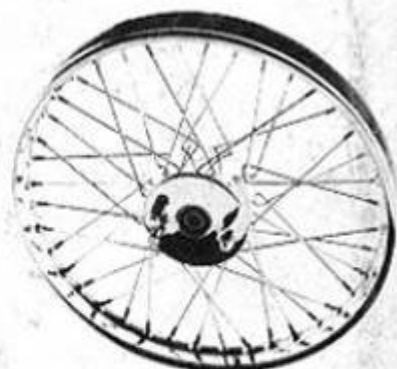

AMEN's patented rear suspension is the secret to a good looking but rideable custom motorcycle. You get the best of both worlds—cushy comfort for miles of tireless jammin', and a look that's close to rigid for complete designing versatility.

AMEN Savior sprung frames are constructed from the finest heavy-wall mild steel stock available, carefully heliarc welded in fixtures which insure perfect alignment and excellent construction. A sprung rear axle with over 1-1/2 inches of travel removes the fatiguing hard jolt from riding—but retains the rigid or hardtail look for that serious custom building. Savior frames are available for 750, 550, 500, 450, and 350 Honda engines, the Kawasaki Z engines, Harleys 74's and Sportsters.

FRONT WHEEL with clean profile drum brake hub, fully chromed and ready for installation. Available in 16", 17", 18", 19", and 21-inch diameters. Savior buck price...\$130!

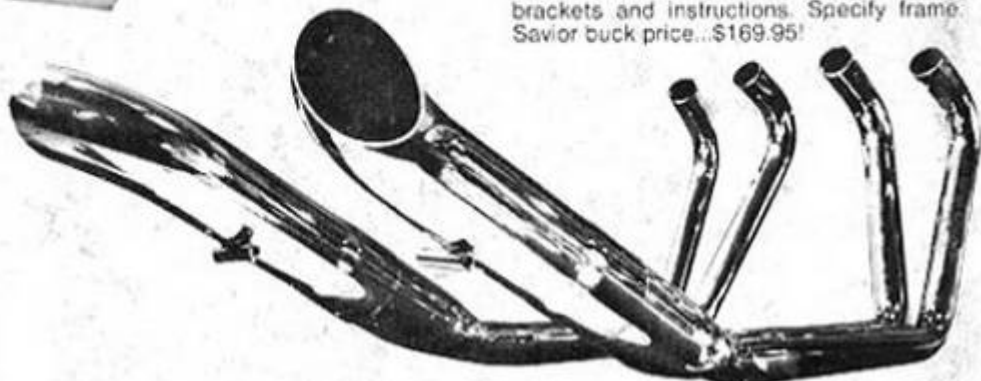

AIR CLEANER. Fits Honda 750 and Kawasaki 900. Large breathing capacity, reusable plastic foam cartridge, chromed body and cover, easily installed. Savior buck price...\$35!

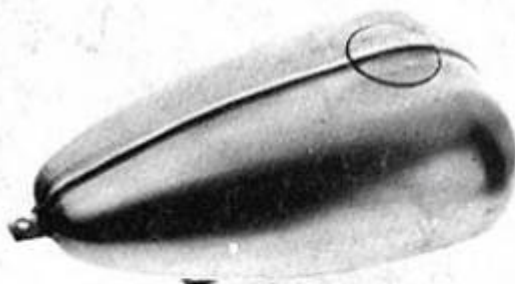

FUEL TANKS, large 2.25-gallon capacity, flush filler Mustang-type or modified diamond. Made of heavy gauge steel sheet, heliarc welded and pressure tested, standard outlet fittings, ready for finishing. Savior buck price...\$60!

HONDA FOUR-INTO-TWO pipe and muffler set. Made of heavy gauge tube steel and show chromed. Complete with mounting brackets and instructions. Specify frame. Savior buck price...\$169.95!

CUSTOM UPHOLSTERED CONTOUR SEAT

Covered in top-grain Naugahyde, Dacron stitched, and upholstered with high density bonded foam. Available in diamond, rib, pleat, diamond button, and square designs. Savior buck Price...\$72!
